

BLUE LAYFLAT HOSE

Recommended Use:

Suitable for temporary water supply or drainage with relatively low difference in height.

Features:

- Operating temperature -10°C to +60°C.
- Light weight.
- High quality.
- Low working pressures.
- Will cut into multiples of 10 meter lengths.

Construction:

- INNER CORE:** PVC compound.
REINFORCING: High tensile polyester yarn.
OUTER COVER: Blue PVC compound.
