

SANDBLAST HOSE PREMIUM

Recommended Use:

Pneumatic transfer of sand, garnet, or metal shot from sand blasting machines to hose end. Light and heavy variations to suit sandblast couplings. Also used for mineral sampling in the mining industry.

Features:

- Mandrel built wrapped rubber hose.
- Excellent abrasion and ozone resistance.
- Premium quality designed for long service life.
- Working temperature range of -20°C to +80°C.
- Heavier wall option for 25 and 32 ID hoses.

Construction:

INNER TUBE: Black NR.
REINFORCEMENT: high tensile textile cords.
COVER: Black NR/SBR blend.
