

Silicone Heater Hose

Recommended Use:

Engineered for superior flexibility and durability for pressurised heating systems in all automotive categories where high performance is required.

Features:

- Superior flexibility with 5 x bend radius.
- Durable construction resists cracking with ageing.
- Good resistance to coolant additives.
- Working temperature range of -54°C to +177°C.
- Meets or exceeds SAE J20 Class A.
- Available in 25 & 50ft boxes & longer spool lengths.

Construction:

INNER TUBE: Red Silicone blend.
REINFORCEMENT: 1 ply nylon fibre.
COVER: Blue Silicone blend.

PRODUCT CODE	ID (mm)	ID (inch)	OD (mm)	WORKING PRESSURE (PSI)	WEIGHT Kg/m	COIL LENGTH (m)
