

## WHITE SANITATION SUCTION HOSE

### Recommended Use:

Designed specifically for the use in sanitation systems in boats, caravans, and recreational vehicles. 15% Nitrile blend gives this hose an excellent resistance to odour permeation.

### Features:

- Operating temperature -15°C to +60°C
- Flexible white hose with rigid helix.
- 15% Nitrile with excellent odour resistance.
- Designed for sewerage plumbing.
- Smooth inner tube to resist build-up of material.

### Construction:

**INNER CORE:** 15% Nitrile Rubber blend with white PVC and smooth finish.  
**REINFORCING:** Hard PVC helix.  
**OUTER COVER:** White PVC.
