

## YELLOW PNEUMATIC HOSE

### Recommended Use:

Yellow Air/Water extruded rubber hose ideal for use with air compressors and pneumatic tools and high-volume transfer in Mining, Agriculture and Construction Industries, Highly versatile.

### Features:

- Economical and versatile, used to convey compressed air or water to tools and equipment.
- Working Temperature between -20° C and 70° C
- Good Abrasion Resistance, high visibility yellow cover.
- Excellent UV Resistance to withstand Australian conditions.

### Construction:

- INNER TUBE:** Black smooth SBR blend.  
**REINFORCING:** High strength polyester yarn.  
**OUTER COVER:** Yellow EPDM/SBR blend.

Product Code TYPF20-020

Product Code TYP-\*\*\*

PRODUCT CODE	ID (mm)	OD (mm)	WORKING PRESSURE @ 20°C	BEND RADIUS (mm)	WEIGHT kg/m	COIL LENGTHS (m)
TYP-012	13	22	300psi / 2MPa	85	0.32	20 & 100
TYP-020	20	30	300psi / 2MPa	125	0.71	20 & 100
TYP-025	25	36	300psi / 2MPa	160	0.87	20 & 100
TYPF-020-020 Fitted with Type A Claw Couplings	20	30	300psi / 2MPa	125	0.71	20
TYPF-025-020 Fitter with Type A Claw Couplings	25	36	300psi / 2MPa	160	0.87	20
