

UTE MATTING

Recommended Use:

Manufactured from tough impact and tear resistant blended natural and synthetic rubber, specially constructed and designed to protect the tray of utes, trailers, and delivery vans.

Features:

- Textured top profile for non-slip surface.
- Non-slip surface prevents items from sliding and rolling.
- Pimpled underside to assist in drainage.
- Reduces risk of corrosion to vehicle.
- Easy to cut to ute tray size.
- Cut by the meter.

Construction:

Manufactured from durable tear resistant blend natural & synthetic rubber.
