

## RUBBER AIR SEEDER HOSE

### Recommended Use:

Primary and secondary feed lines on Air Seeder bars for transfer of seed and fertiliser. Used in place of PVC to improve wear and UV resistance for a longer life span.

### Features:

- Best-selling economical rubber hose.
- Great flexibility.
- Excellent UV and abrasion resistance.
- Step up from PVC hose.
- Working temperature range of -30°C to +80°C.
- Safety factor 3:1.

### Construction:

**INNER TUBE:** Black smooth NR/SBR blend.  
**REINFORCEMENT:** Multiple high tensile textile cords with wire helix.  
**COVER:** Black smooth NR/SBR blend.
